

# Join The Academy of Model Aeronautics.

A membership in the Academy of Model Aeronautics covers you for whatever you fly and wherever you fly. And it doesn't matter if you fly an airplane, helicopter, park flyer, multirotor, quadcopter, sUAS, FPV, DIY drone or even an aerial robot. Just join the AMA, fly for recreational fun and operate within the AMA National Model Aircraft Safety Code and you're cleared for takeoff.

## What Makes An AMA Membership Such A Good Deal For \$75?

Flying models is a safe activity. But sometimes accidents can happen involving people or property. Enjoy peace of mind flying by knowing the AMA has you covered with insurance that comes with your membership. It would cost you \$1,000 a year or more to buy this insurance on your own. And you're covered whether you choose to fly at an AMA club field, park, backyard or wherever.

### Member Insurance Benefit

- \$2.5 Million Liability Umbrella
- \$25,000 Medical Coverage
- \$1,000 Fire and Theft Coverage

### If You Purchased It

- \$400 or more a year
- \$600 or more a year
- \$30 or more a year

AMA members can now buy low cost commercial drone insurance. Get a quote at [AMADRONEINSURANCE.COM](http://AMADRONEINSURANCE.COM)

## Enjoy These Other Valuable Benefits.

Your membership includes Model Aviation, a monthly magazine featuring "how-to" articles, columns, product reviews, AMA member features, district and industry news, an event calendar and more.

Add Park Pilot magazine for \$9.95

Or choose Model Aviation Digital available for your phone, tablet or computer.

## AMA STANDS UP FOR YOUR INTERESTS AND RIGHT TO FLY.

Our work with Congress helped to establish the Special Rule for Model Aircraft, exempting recreational, unmanned aircraft from regulation. Now AMA's standing as a national, community-based organization and our National Model Aircraft Safety Code has been recognized by Congress. And the FAA considers our Safety Code to be a legitimate means of operating recreational, unmanned aircraft in the national airspace. More work still needs to be done with the FAA to help keep model flying free of regulation.
